EDUCATION

Master of Computer Applications	2024-2026	KIET Group of Institution, Delhi-NCR	8.5 CGPA
B.Sc. (Honours) Mathematics	2021-2024	Delhi University, Delhi	6.7 CGPA
CBSE (Class XII)	2021	Creane Memorial High School, Gaya	91.4 %
CBSE (Class X)	2019	Creane Memorial High School, Gaya	91.3 %

PROFESSIONAL EXPERIENCE

Data Science Intern, [Oasis Infobyte](#) | AI-ML Projects | New Delhi, India [June '25 – July '25]

- Engineered ML models on **3 datasets** (Iris flowers, Car Price, Advertising), achieving **96% accuracy** in **classification** and **0.88+ R² scores** in **regression** tasks by applying end-to-end workflows including **EDA, feature engineering, and model tuning**.
- Applied **supervised learning techniques**(Linear, Logistic, Decision Trees, Lasso, and Ridge) using **Python and Scikit-learn** to **reduce prediction error by 22%**, optimized variable correlation analysis via heatmaps, and boosted **model consistency by 15% via cross-validation**.

Data Science Intern, [NoCage](#) | AI-ML Team | New Delhi, India [Feb '25 – Apr '25]

- Built and deployed predictive models using Python and scikit-learn with **72% accuracy**, enabling early identification of high-risk projects and reducing failure rates by **18%**.
- Created **Tableau and Power BI dashboards** to visualize 10K+ data points, leading to a **25% improvement in decision-making speed** across cross-functional teams.
- Applied **NLP techniques** (tokenization, sentiment analysis) on 5K+ user interactions to optimize networking algorithms, boosting engagement recommendations by **30%**.

Mathematics Expert & Content Writer, [IITIAN Academy](#) | Content Engineering Team | New Delhi, India [Apr '23 – Aug '24]

- Developed and managed **50+ SEO-optimized WordPress pages**, enhancing user engagement and increasing site traffic by **20%** through structured, educational content.
- Delivered **1000+ step-by-step solutions** for advanced math problems using **LaTeX**, ensuring content clarity.
- Resolved over **500 premium user queries** with high accuracy and timeliness, driving a **15% increase in customer satisfaction** and contributing to a **5% annual revenue growth**.

PROJECTS

AI-Powered ATS Resume Evaluator — ML & Full Stack App | [Link](#) | HTML, CSS, JS, Flask, Gemini API, PyPDF2

- Developed an AI-powered ATS Resume Analyzer that evaluates resumes against job descriptions using Google Gemini AI, delivering ATS scores, skill-gap analysis, personalized recommendations, and interview question generation.
- Implemented resume parsing and text extraction using PyPDF2 and OCR techniques, enabling support for both PDF resumes and image-based documents while improving evaluation accuracy and reliability.
- Built a secure full-stack application with user authentication, responsive UI, PDF report generation, robust JSON handling, and real-time AI-powered feedback, creating an end-to-end recruitment assistance platform.

Resort Management System — Web App | [Link](#) | HTML, CSS, JS, Bootstrap, UI/UX

- Built a luxury-themed, **responsive booking site** with video backgrounds and **interactive UI**.
- Designed an admin dashboard for bookings, payments, and feedback, improving **operation efficiency by 40%** and cutting manual tasks **50%**.

ACHIEVEMENTS AND AWARDS

- Won 1st place** in the Mathematical Quiz by Cluster Innovation Centre, DU, demonstrating top-tier analytical and problem-solving skills.
- Led student council** at SPM, Delhi University for 3 years; mentored peers, organized 10+ academic events, and represented 250+ students in university-wide forums.
- Secured 2nd place** in **SPARK TANK 2025**, a pitch-based innovation challenge hosted by SRM's Entrepreneurship Club, showcasing business acumen and creative problem-solving.

TECHNICAL SKILLS

- Languages:** C, C++, R, Python, SQL, HTML5, CSS3, JavaScript, Latex, Bootstrap
- Tools & Frameworks:** VSCode, Linux, VMWare, Anaconda-navigator, Google-collab, Git-GitHub, AWS, Excel, NumPy, Pandas, Seaborn, Matplotlib, TensorFlow, Keras, Scikit-Learn
- Relevant Coursework:** DSA, Operating System, Software Testing, DBMS, Data Science, Software Engineering, ML, AI, Cloud Computing
- Certifications:** **AWS** Essential Training for Developers, Learning **Data Analytics-Foundations**, **Deloitte** Australia's **Data Analytics** on Forage, **Git Essential** Training, **Programming foundations:** Test-driven Development.

EXTRA-CURRICULARS

- UCMAS Abacus & Mental Arithmetic Advanced (Level 8) achiever: Top **2%**.
